ALBERTA BUSINESS TRENDS

The value of building permits issued in the province in May 1971 was more than double the previous May total. The cumulative total for the year showed an increase of 32% over the same period last year, with values up in all categories except Institutional and Government. The value of permits issued in Calgary during the first five months of the year increased from \$60 million in 1970 to \$87 million in 1971. The value of permits issued in Edmonton over the period rose from \$44 million in 1970 to \$51 million in 1971.

Activity in the coal mining and petroleum industries in the province continued well above year earlier levels in April and May. The value of crude oil produced to the end of April was 22% greater than last year; natural gas sales were 11% greater than sales in the same period of 1970. The value of coal production in the first five months of the year increased from \$7.8 million in 1970 to \$16.2 million in 1971.

The value of Alberta manufacturers shipments over the January - May 1971 period, at \$746.8 million, was 1.8% above shipments in the first five months of 1970. Sales of packing plants over the period were 1.3% above last year, production of lumber was up 13.3%. Electricity generation increased 11.6%.

Alberta farmers cash receipts for the January - May 1971 period are estimated at \$269.8 million, an increase of 2% over receipts in the same period last year. In the field crops sector cash receipts increased 24% over 1970. Revenue from sales of wheat declined while income from barley sales increased 2 1/2 times and rapeseed sales nearly doubled.

Cash receipts from the sale of livestock and livestock products are estimated at \$163.3 million, a decrease of 9% from the January - May 1970 period. Slightly higher prices of cattle failed to offset the effect of lower marketings. A large increase in marketings of hogs did not offset the effect of drastically reduced prices.

April 1971 retail sales were above year earlier levels for all categories of retailers with the exception of fuel dealers. Sales to the end of April registered a 3.7% gain over last year. A total of 30,512 new motor vehicles were sold in Alberta from January to May 1971 with a value of \$117.9 million. The comparable 1970 figures are 27,859 and \$107.8 million. Wholesale trade during the first five months of 1971 registered a 5% increase over the corresponding period in 1970; the May 1971/1970 increase was of the order of 11%.

There were 25,000 persons unemployed in June out of a total provincial labour force of 677,000. The unemployment rate of 3.7% compares with the June 1970 rate of 4.2% and the June 1969 rate of 2.4%.

MEMORANDA

Alberta farmers cash receipts from dairying increased to \$45.5 million in 1970 from \$41.8 million in 1967. The value of milk, cream and farm butter consumed in farm homes in 1970 was estimated at \$4.8 million. Consumption of ice cream in the province is estimated at 3.5 gallons per capita or 5.6 million gallons in total for 1970. Consumption of fluid milk and cream for the year was approximately 124 quarts per capita or 199 million quarts in total.

Alberta was given as the province of intended destination by 1,931 Canadian immigrants in the first quarter of 1971. In the same period last year 2,189 immigrants listed Alberta as the province of destination.

In 1970 a total of 4,275 Alberta residents were granted certificates of Canadian citizenship. Of this total 3,620 were urban residents and 655 resided in rural areas.

Retail sales of the 62 shopping centres (five or more retail establishments designed as a unit with free parking facilities) in Alberta in 1969 were \$364 million. The increase in retail sales over the previous year amounted to almost 20%.

Realized net income of Alberta farm operators from farming operations in 1970 was \$205.1 million as compared to \$227.6 million in 1969. Realized net income represents the amount of income from farming that operators have left for family living, personal taxes and investment after provision has been made for operating expenses and depreciation charges.
